

# Reviewing Charges

Follow the steps below on how to review charges filed by clinicians

## Try It Out

1. From the patient's chart, go to the **Charge Capture** activity
  - Hint: If it is a specialized charge (Ex: Wound, Therapy), go to the navigator first, then the Charge Capture section
2. Here, you will see *Inpatient Charges Entered Within the Last 72 Hours*
3. All charges will have a status of **Filed**, and users will be able to review what was charged
