3. Ensure to document as much applicable information in each of the links.

4. If used in combination with the Required Documentation Report in the Side Bar, you can ensure you are always in compliance.

The screenshot displays the 'IP Sidebar Orders Mgmt' interface. At the top, there is a 'Summary' dropdown and a navigation bar with a back arrow, a document icon, and a refresh icon. Below this is an 'Index' section with a list of links: Orders Management, Current Meds, Care Plans & Patient Education, I/O & Results, Required Documentation (highlighted with a red box), Work List Tasks, Diet Orders, Active Lines, Problem List, Allergies, History, Treatment Team, and Blood Administration, Policies & Procedures. Below the Index is a 'Required Documentation' section, also highlighted with a red box. This section contains a sub-section 'Required for This Shift' with a refresh icon and a 'Last Updated: 0654' timestamp. Below this is a list of 'Upcoming (7)' tasks: Care Plan Documented, Fall Assessment, Head to Toe Assessment, Pain Assessment, Patient Education Documented, Patient Positioning Assessment, and Skin/Braden Assessment, all with a time range of 1901 - 0701. A red double-headed vertical arrow is positioned next to this list. Below the upcoming tasks is a 'Previous Shift (Overdue)' section with a refresh icon and a timestamp 'Ended: 07/12/18 1901'. Below this is a 'Required within 4 Hours of Admission' section with a refresh icon and a timestamp '09/18/17 0744'. At the bottom, there is a 'Last Updated: 0654' timestamp and a 'Refresh' button.

- The Index in the Side Bar serves like a table of contents to quickly access specific places within the chart.
- Each link open Within the Side Bar
- The Required Documentation is split into intervals reflecting when the documentation is required.

## You Can Also...

- Select the Required Documentation button within the Flowsheet Activity.
