

Using Transport

This is a tip sheet specifically for Clinical users to request transport for patients that are in house and need to be transported to an appointment such as x-ray, CT, etc....

Provider has written an order for patient, Scpadrg, Himtwo to have a CT scan. The CT department has notified you that the patient can come down immediately. The patient is prepared to go and the nurse will place the order for transport. She will first highlight the patient on the unit manager and then Click the Transport button which will open the transport request form to complete.

303-01						Scpa, Newref (30yrs M)	Inpatient		Private Tele						Michael A Becker, C	None		
305-01						Test, T (30yrs M)	Inpatient		Private Teler						Physician Surgery, M	None		
310-01						Scpa, Mary (28yrs F)	Inpatient		Semi-Privat						Physician Internal M	None		
309-01						- Dirty -										None		
301-01						Orders, Scpaone (40yrs F)	Hospitz		Semi-Privat						Physician Surgery, I	None		
302-01						Orders, Scpatwo (40yrs F)	Hospitz		Semi-Privat						Physician Surgery, I	None		
310-02						- Ready -										None		

The Nurse will complete all information necessary in the request including Drop off to:, Priority, Mode and Transport requirements. There is a place for comments if necessary. Filling out this information and accepting this request will create a patient "ticket to ride" that will print and the default printer within the department the patient is being picked up in.

Patient Transport - Ad-hoc

Scpadrg, Himtwo (700002080)

71-year old / Male
